FRONTEND CORE	HTML5 · CSS3 · Sass / SCSS · JavaScript (ES6+) · TypeScript · React.js · Next.js · Tailwind CSS · Framer Motion
ARCHITECTURE & RENDERING	Component Architecture · Reusable Components · SSR · CSR · SSG · ISR · Code Splitting · Lazy Loading
STATE, DATA & FORMS	Redux Toolkit · Context API · Zustand · TanStack Query · React Hook Form · Zod · Axios · REST API · JWT Authentication
PERFORMANCE & SEO	Performance Optimization · SEO Optimization · Responsive Design
TOOLING	Git · GitHub · npm · pnpm · Vite
BACKEND FAMILIARITY	Node.js · Express · MongoDB · PostgreSQL · Redis · Docker · Docker Compose · Nginx

EXPERIENCE

Frontend Developer · Kiasho

Apr 2025 — May 2026

- Built and shipped Next.js frontend features, translating designs into performant, reusable components.
- Established a component architecture adopted across the product, shortening delivery time on new features.
- Owned client-side state and data flow, keeping the UI consistent and predictable across the app.
- Integrated and optimized REST API calls, reducing perceived data-loading time.
- Delivered the frontend for an AI-powered ordering feature, pairing UI work with the underlying AI integration.

Frontend Developer Intern · IdehWeb

Sep 2024 — Mar 2025

- Joined as a frontend trainee, ramping up on React/Next.js in a live production codebase.
- Contributed to UI development tasks under senior guidance, building foundational frontend skills.

WordPress Developer · Fartak Tejarat Hasti

Sep 2020 — Dec 2021

- Joined as a WordPress site developer, designing and building the company website.
- Took ownership of ongoing maintenance and support for the site after launch.

SELECTED PROJECTS

MenuWAI

menuwai.ir

AI-powered multi-tenant restaurant SaaS platform for digital menus, conversational ordering and restaurant management.

- Architected and built a multi-tenant restaurant platform serving independent businesses from a single codebase.
- Developed a conversational AI ordering experience that lets customers browse menus and place orders using natural language.
- Built a responsive admin dashboard for menu management, order tracking and restaurant configuration.
- Implemented SSR, SEO optimization, REST API integration and authentication across the application.
- Contributed to deployment and infrastructure using Node.js, PostgreSQL, Docker and Nginx while keeping frontend development as the primary focus.

Next.js · TypeScript · React · Tailwind CSS · SSR · SEO · REST API · Docker

Fixino

fixino.ir

Online vehicle accident assessment platform

- Developed the frontend of an accident assessment platform using Next.js, TypeScript and Tailwind CSS.
- Implemented the complete reporting workflow, allowing users to upload images and videos of damaged vehicles.
- Integrated REST APIs with a FastAPI backend to display repair estimates submitted by repair shops.
- Built responsive and production-ready interfaces focused on usability across all devices.

Next.js · TypeScript · Tailwind CSS · REST API

Personal Portfolio

samanellahi.ir

Personal portfolio showcasing frontend engineering projects and interactive UI experiences.

- Designed and developed a modern portfolio using Next.js, TypeScript and Tailwind CSS.
- Implemented advanced scroll-driven animations and polished user interactions.
- Focused on performance, accessibility, responsive design and SEO best practices.

Next.js · TypeScript · Framer Motion · SEO

Anashid AI

Internal AI assistant project

- Developed frontend interfaces for an AI-powered conversational assistant using Next.js.
- Integrated AI APIs and implemented reusable UI components for chat-based interactions.
- Collaborated with backend services during product development before the project was discontinued.

Next.js · TypeScript · AI Integration

Fardan

Internal online learning platform

- Built frontend pages for an online course platform similar to modern e-learning systems.
- Developed reusable UI components and integrated REST APIs using Next.js and TypeScript.
- Collaborated with backend developers during product development before launch.

Next.js · TypeScript · REST API

Anashid Blog

Internal SEO-focused blog platform

- Developed an SEO-optimized blog platform using Next.js.
- Contributed to backend development using MongoDB and Next.js.
- Implemented reusable article pages, metadata and optimized rendering for search engines.

Next.js · MongoDB · SEO

EDUCATION

JavaScript Certification

Fanni Tehran Complex

Dec 2024 — May 2025 · Score 98/100

B.A., Insurance Management

Azad University, Tehran Central Branch

Sep 2018 — Sep 2023
